

Unirac delivers instant support with industry-leading mobile solution

ALBUQUERQUE, NEW MEXICO, August 4, 2008 — Unirac Inc., North America's leading manufacturer of solar photovoltaic (PV) mounting solutions, today announced the launch of Unirac Mobile (www.unirac.com/mobile); an industry-leading, innovative approach to providing service and support to installers and system integrators in the PV industry. Starting today, Unirac customers will be able to instantly access technical support and installation information from the Unirac Mobile micro-site using their mobile devices such as cellular phones, blackberries and PDAs.

Unirac Mobile is the latest innovation from Unirac that reflects their ongoing commitment to providing the quickest, simplest and most-cost effective installation solutions. Offering installers easy access to critical information at their fingertips, Unirac Mobile will significantly speed the installation process and help save installers time and money.

"We continue striving to be the easiest partner to do business with in the PV mounting industry," said Douglas May, Unirac CEO. "We are committed to delivering innovative solutions to our customers that address their requirements, and we believe Unirac Mobile delivers by providing access to support; anytime, anyplace, anywhere."

The Unirac Mobile micro-site is designed with complete step-by-step installation and grounding instructions for Unirac's SolarMount, SunFrame and RapidRac solutions. **Customers can register quickly and easily from their computers at www.unirac.com/mobile, and once completed, they will receive an e-mail with a link granting them immediate access to the site. Unirac Mobile is free and available to all Unirac customers, though normal data rates by carrier will apply.**

"We highly commend Unirac on this innovative solution that addresses the priorities of installers and integrators in the industry," said Tom McCalmont, REgrid Power CEO and SolarTech Chairman.

Unirac Mobile is the first of its kind to be launched in the PV mounting industry and is just one of the many services Unirac provides as part of their complete solution offering, designed to make the PV installation process easier, quicker and more cost-effective for installers and system integrators.

About Unirac

Based in Albuquerque, New Mexico, Unirac (www.unirac.com) was founded in 1998 and quickly became the industry leader with a reputation for superior mounting solutions, responsive support and outstanding services. Speed and high-quality installation options are the trademarks of all our PV mounting solutions. Unirac delivers innovation, on time, and with award-winning results.
